INDIVIDUAL STORY

I used to translate every sentence in my head before speaking. After four months of building vocabulary my way — words I actually use at work, words I hear in podcasts — I stopped translating. English started flowing naturally. My colleagues noticed. My manager noticed. That was worth every dong.

Tôi từng phải dịch từng câu trong đầu trước khi nói. Sau 4 tháng xây dựng vốn từ theo cách của mình, tôi ngừng dịch. Tiếng Anh bắt đầu trôi chảy tự nhiên.

BEFORE
Translating in her head. Hesitant to speak. Generic word lists that didn't connect.

AFTER 4 MONTHS
Speaks without translating. Promoted. Confident in international client calls.
